Up to 60 Days* of Hands-Free Cleaning

The auto-empty station uses 25,000 Pa of suction to remove dust from RoboVac easily. It is collected in an anti-bacterial and deodorizing dust bag** which prevents dust and bad smells from escaping and can be used for up to 60 days* before needing to be replaced.

iPath™ Laser Navigation

RoboVac uses advanced LiDAR technology and a Z-shaped cleaning route for accurate and efficient cleaning.

Ultra-Strong 3,200 Pa Suction

RoboVac effortlessly sucks up debris from hard floors and carpets for a deeper clean.

Multi-Floor Mapping

RoboVac automatically recognizes up to 3 levels in your home and saves the custom cleaning preferences for each floor.

Convenient App Control

Use the app to customize your cleaning plans for different rooms.

Electronic Water Tank

Choose a suitable water flow for your floor for a thorough clean and avoid using too much water or leaving water stains.

2-in-1 Vacuum and Mop

Vacuum and mop simultaneously, plus set the water level for a clean that suits your floor type.

BoostIQ™ Technology

Suction power is automatically increased when RoboVac detects a change from hard floors to carpets—ensuring a consistently deep clean.

Climb Higher

RoboVac can easily climb over thresholds and rugs up to 20 mm thick without getting stuck.
